Language and Literature ATL Sorting Challenge

Directions: Read each Language and Literature activity below. Determine which ATL skill is being practiced. Write the skill (and category if you wish) in the blank column. Some activities may involve more than one ATL skill.

	Language and Literature Activity	Which ATL skill is being practiced?
1	Read a short story and identify the author's purpose, point of view, and how specific word choices create meaning.	
2	Write a comparative paragraph analyzing how two texts present a similar theme differently.	
3	Participate in a Socratic Seminar, listening to others' perspectives and building on their ideas to support your own.	
4	Plan, draft, and revise a narrative using feedback from a peer to improve organization, voice, and word choice.	
5	Research a real-world issue, evaluate the credibility of sources, and take notes to create a claims-based essay.	
6	Use a graphic organizer to track character development, identifying textual evidence to support your ideas.	
7	Create a multimedia presentation (slides, video, or poster) that explains a literary device and provides examples from a novel.	
8	Edit a peer's writing for clarity, grammar, and structure, then explain your feedback using specific examples.	
9	Annotate a poem, highlighting literary devices and making connections to a global issue.	
10	Reflect on your reading process by completing a self-assessment, setting a goal, and creating a plan to improve in your next unit.	

ATL Skills in Language and Literature

How we think, communicate, organize, research and collaborate to become better readers, writers and global thinkers.

THINKING

Use critical and creative thinking to understand, analyze and create meaning from texts and ideas.

Analyze
Identify author's purpose, perspective and techniques.

Interpret
Make inferences and connections within and beyond the text.

Evaluate
Assess the credibility of sources and the strength of arguments.

Create
Generate original ideas, interpretations and creative responses.

Transfer
Apply understanding from one text or context to another.

COMMUNICATION

Express and exchange ideas effectively and appropriately in a variety of formats and contexts.

Listen
Active listening to understand others' perspectives.

Speak
Share ideas clearly and confidently in discussions, debates and presentations.

Read
Understand and analyze a range of texts, including literary, non-literary and multimodal.

Write
Craft organized, coherent and purposeful texts for different audiences and purposes.

Use media
Communicate ideas through multimedia, digital platforms and visual formats.

SOCIAL

Collaborate with others, respect different perspectives and contribute to meaningful discussions and shared learning.

Collaborate
Work effectively in pairs and groups to discuss, analyze and create.

Respect
Value and consider diverse opinions and cultural perspectives.

Contribute
Share ideas and take responsibility for your role in group work.

Give and receive feedback
Provide constructive feedback to improve ideas, writing and presentations.

Build relationships
Engage in respectful and productive discussions with peers, teachers and the wider community.

SELF-MANAGEMENT

Take ownership of your learning by managing time, setting goals, staying organized and reflecting on your progress.

Organize
Plan and manage time for reading, writing and research.

Set goals
Identify personal learning goals and steps to achieve them.

Stay focused
Minimize distractions and persist through challenging tasks.

Manage emotions
Practice perseverance and maintain a positive mindset.

Reflect
Assess your strengths, challenges and progress to guide future learning.

RESEARCH

Find, evaluate, and use information from a variety of sources to support and develop ideas.

Formulate questions
Develop relevant and meaningful inquiry questions.

Find information
Locate information from credible and diverse sources (print, digital, multimedia).

Evaluate sources
Assess the reliability, bias and relevance of information.

Take notes
Record and organize information effectively using your own words.

Synthesize and cite
Combine information from multiple sources and credit ideas appropriately.
