New Renaissance Middle School
Collaborative Planning Description/Clarification

MYP Teachers are scheduled to meet with the IB coordinator as a department every Tuesday and Thursday morning for approximately one hour. During this meeting, the departments can learn best practices and relevant IB information that can support and facilitate the integration of the IBMYP curriculum into classrooms. At the beginning of the year, after an annual focus is established, a tentative schedule is created by the IB coordinator that outlines the dates and focuses of upcoming IB meetings with the MYP teachers. For example, the focus of the 2024-2025 school year is strengthening the unit planning process. The tentative schedule outlines topics that are related to this focus for the year. The sample agenda shared is a blank template of the meeting agenda that is shared with teachers to use during the meetings with the IB coordinator. The meeting agendas are shared over Microsoft OneNote so that the teachers can both reflect and collaborate with one another. Space is provided on the meeting agenda to allow for notes and during the meetings, teachers are encouraged to reflect on what is shared. It is important to note, due to restrictions on scheduling and time, departments may meet with other departments however, the information shared is specific to their content and the teachers are encouraged to conduct interdisciplinary planning during meetings.

Matter to be addressed-Dec. 2024
