Professional Summary

Educational leader and International Baccalaureate (IB) Coordinator with more than 13 years of experience in mathematics instruction, curriculum development, and academic program leadership. Provides strategic leadership for a schoolwide IB Middle Years Programme serving approximately 800 students, aligning curriculum, assessment, professional learning, and program evaluation across grades 6–8. Coaches teachers through collaborative planning, classroom support, and targeted professional learning to strengthen instruction and build educator capacity. Collaborates with school and district coordinators to advance districtwide priorities and strengthen program implementation across schools. Committed to inclusive, rigorous learning and innovating schoolwide initiatives that support student achievement and college readiness.

Professional Experience

Broward County Public Schools Jan 2021 to Present

International Baccalaureate Coordinator

Leadership and Collaboration

- Lead schoolwide IB Middle Years Programme implementation for approximately 800 students in grades 6–8, aligning program priorities with school and district goals.
- Collaborate with administrators and teachers across eight subject areas to support consistent curriculum, assessment, and program implementation.
- Facilitate biweekly professional learning and PLCs; coach teacher leaders as IB content experts to build capacity and provide classroom-based support.
- Build family and school partnerships through parent tours, feeder-school visits, and ongoing collaboration with feeder elementary schools to promote enrollment.
- Organized several successful parent and community events, coordinating staff and activities that engaged families and deepened their understanding of the school's curriculum and learning opportunities.

Curriculum, Instruction, and Student Support

- Guide teachers in developing and reviewing MYP unit plans, assessments, and learning experiences aligned with IB expectations and district and state standards.
- Support teachers in strengthening inquiry, conceptual teaching, and explicit instruction in Approaches to Learning skills.
- Collaborate with teachers to use i-Ready and other diagnostic and progress-monitoring assessment data to inform instructional planning.
- Support inclusive access to rigorous learning by working with ESE teachers and teacher leaders to address the needs of diverse learners.

Program Management and Evaluation

- Led preparation for the IBO's five-year evaluation, coordinating timelines and the collection and review of more than 100 supporting documents.
- Supported the school through an evaluation that resulted in six Matters to Be Addressed, the fewest among district IB schools at the time.
- Served as the liaison between the school and the IBO, communicating program requirements and evaluation expectations to school leaders and staff.
- Shared evaluation processes and lessons learned with other IB coordinators and supported schools preparing for their own evaluations.
- Coordinate program calendars, staff communication, documentation, and evaluation readiness across subject areas.
- Led coordination of the school's five-year IB evaluation, including the collection and review of more than 100 supporting documents.
- Develop and share program resources that help staff and families understand the MYP and its learning opportunities.

Broward County Public Schools Jul 2017 to Jan 2021

Mathematics and Personal Finance Educator

Data-Driven Instruction

- Collected and analyzed student progress data through i-Ready, using the results to guide instructional decisions, identify learning needs, and plan personalized support.
- Achieved the highest i-Ready usage across classrooms during the 2017–2018 school year by consistently integrating the platform into instructional planning and student learning.

Professional Development & Collaboration

- Facilitated PLCs and, as a lead IB teacher, delivered IB training and workshops on OneNote and i-Ready data to strengthen staff proficiency and curriculum delivery.
- Collaborated with teaching peers on curriculum-aligned activities and field trips that helped students apply math concepts.
- Collaborated with teachers and administrators to monitor math progress, reinforce learning goals, and coordinate student support.

Parent & Faculty Communication

- Maintained communication with students, families, and faculty through email, ClassDojo, and other platforms to share progress and learning strategies.
- Organized Math Curriculum Nights from 2017–2019, engaging families and helping caregivers understand the curriculum, instructional approaches, and ways to support math learning.

Charter Schools USA Aug 2014 to Jul 2017

Mathematics Educator

Data-Driven Decision Making

- Analyzed Think Through Math student progress data to guide instructional decisions and adjust math instruction.
- Integrated Reading Plus and Think Through Math into instruction, contributing to the highest student usage of both platforms during 2016–2017.

Technology Integration

- Recorded the highest instructional technology use in a network of 88 schools in December 2016.

Student Achievement & Curriculum Support

- Guided students to achieve the highest Algebra and Geometry proficiency in the school's history and contributed to a 77% middle-school acceleration rate toward the school grade.
- Coordinated math curriculum and provided teachers with resources aligned with student needs and learning objectives.

Education

St. Thomas University, Miami Gardens Jan 2020 to Jan 2022

Master of Science in Educational Leadership and Administration

Florida State University, Tallahassee Jan 2009 to Jan 2013

Bachelor of Science in Sociology
